# Welcome to Faerieland!

I cannot say what it is that I love most about organising Faerie Festival. Perhaps it's the familiar smell of the air that hits you as you arrive in the glorious British countryside, the excitement as you watch the space being filled with colourful tents, or maybe it's recognising the same smiling faces that attend each year. One thing is for certain: although the weekend comes with a lot of stress and pressure, it will always be the absolute highlight of my year!

Previous attendees will know that the festival has just changed locations. Sadly, due to Alfriston Campsite being listed for sale, we were unable to guarantee a booking with them for 2024. And so, for this 17th annual gathering, we have moved to this beautiful new location. When I first arrived for a viewing back in May last year, I was greeted with the sight of a wild deer and bunny rabbits contently hopping about. I knew this location would be a great alternative.

If you need any help or have any questions during the weekend, please ask one of the stewards who will be wearing hi-viz vests or visit one of our 'Info Points' that are sign-posted in both fields. A first-aid tent can also be found close to the main arena area.

Parents are kindly reminded that children are to be supervised at all times and dogs must be kept on a lead.

A huge amount of love and work goes into creating the Faerie Festival. I would like to say a heartfelt thanks to all who have made the event possible. I hope you all have a faerie-tastic time!

Warm wishes, Matthew Callow

**This years festival is held in memory of Paul Gamestar.**

# PERFORMERS AT FAERIE FESTIVAL 2024

If you have enjoyed a band or performers set at this year's fest, please consider buying their CD from the merchandise/information point tent in the main arena area. Search for the band's name on social media or Google to follow them and find out more about their upcoming projects.

**PerKelt** is a Pagan Speed Folk band based in London, UK. Their poetry and strong message of freedom and joy merges together with crazily fast, powerful rhythms and joyful melodies. The music of PerKelt blends together the upbeat "engine" of drums and guitars, their trademark unrivalled duels of fiddle and recorders, haunting pagan vocals and the deep tribal vibes of didgeridoo.

Yarr! **The Captain's Beard** be a company o' travelin' troubadours on a quest te bring the finest o' sea shantys and forebitters to the ears of all who'll listen. We play songs of the grog, grot and grime that comes o' travelling the high seas. Fer all who enjoy the pirates life let us be yer soundtrack!

**The Fabulous Red Diesel** is an original jazzy 4 piece have sold out Ronnie Scott's Upstairs 3 times in the last 2 years. Their latest album 'Goddess The Seahorse' made it onto Jazz FM, and was featured as track of the week on Dinner Jazz. Buckle up for the ride of your lives, and watch out for that tuba!

**Victor & The Bully** Armed with a steampunk aesthetic and bringing in a thunderous twisted sound of Guitars, pianos, violins, trumpets and anything we can throw in the mix, they create a carnival blend of music inspired by pop, punk, swing, mariachi, classical and metal to blow the cobwebs away and get the feet tapping!

**Kaya Ruppo** is a multidisciplinary creator and artist. Through her connection to the world of nature, folklore, and pagan realms, she brings expression to the stage and to people. Additionally, she creates land art, tells stories, and conducts empowerment workshops for women of all ages inspired by goddesses and mythical female figures.

**Ravenhymn** is a 3 piece neo-medieval project hailing from London and Kent. Blending bagpipes, vocals and drums with the somewhat more modern bass guitar, Ravenhymn sets out to bring the raucous times of Middle Ages debauchery to the modern world.

**The 286** A seven piece band from London, The 286 dare to cross the genres of indie rock and classical music. By clashing rock & roll riffs with cellos and violins, The 286 create a unique sound that you expect from a musical collaboration between The Beatles and Beethoven.

**Nova Halo** is the synergistic pseudonym title of alt pop songstress Nancy's works. Not quite an alter ego and not quite a band, but the liminal project title of a revolving line up steered by a fixed frontwoman. Her seraphic vocals fluctuating from bright and gossamer to dark and raspy repose, fantasian aesthetics and beguiling songs have been intriguing audiences since 2017.

**Experimental Sonic Machines** is an electronic & acoustic music project from Lincoln, accompanied by robot drummer Ernie. All the music is original & most of the instruments are made from scrap materials. At previous Faerie Festivals the organfishes have appeared & at this year's festival the 2 metre organfish might be appearing...

Named after the hometown of Elizabeth I's court magician, Dr John Dee, **Mortlake** is an eldritch blend of 70's era folk revival, folk horror and a healthy dose of Tudor and Medieval influences. Our songs are written for the most part based on local legends and tales from the windswept Romney Marsh, where we are based.

**Fae As Folk** Bards from beyond the veil bring you fantasy folk and spooky stories. Come with us on a journey through the Unseelie Courts and wander through the crumbling halls of our ancestors days. Suspend your disbelief and escape from this late-stage capitalist dystopia. To a land where the Fae still rule.

**Touch The Earth** are a pagan tribal folk band who make music to touch the heart. Their inspiration flows from the Celtic heritage of this land. The group also has a shamanic centre on the Isle of Sheppey where they frequently hold ceremonies and celebrations.

**Willows Drum** A dynamic duo of guitars, mandolin and drums along with songs that hail from nature, spirit and tradition. This folk based pair of individuals who will take you to the realms of the fae, to the mountains, hills and fields of magical Albion and beyond.

**Car Dia** Susan Marie Paramor is a weaver of songs of the land from an early age, singing and creating poetry in song. Aged eleven, she was Head of the Dhekelia Cathedral Choir in Cyprus after which she went on to sing opera, jazz, musical theatre and folk. Lead singer in jazz band 'Get Wise' while, at the same time, taking on roles in theatre, film and on television.

**Modnessa** - translating to 'Unity' in Old English - our tribal-trance-folk takes the listener on an ethereal & atmospheric journey across ancient landsvibes of didgeridoo.

**Cyoakha Grace** is a haunting world and trance 4 octave vocalist, songwriter-film composer, and live trance dance looper whose magical songs have been called "a wild carpet ride" and whose music has been commissioned for film and won composer awards. She's been a festival gypsy for years, performing at the Oregon Country Fair, Burning Man, and many more.

The first incarnation of **Pentacle Drummers** were formed on 28th July 2001 for the Eastbourne Giants (Herne and Andred), to beat a path for them at the very first Eastbourne Lammas Festival. However the group was just known as the Eastbourne Giants and Drummers for a couple of years.

**Lyz Le Fay** is a singer and songwriter who plays a variety of instruments. Her ethereal voice will transport you to the magical realms and enchant you with folkloric tales and songs. She will mesmerise you with her handwritten and re-woven traditional works.

**Alternative Folkie** Shell Turnbull is an artist who draws on her love of the earth, life, death, and beyond for inspiration. With just a guitar and a drum, she writes songs with passionate pagan themes. Using dark gothic visuals while singing softly and belting out her vocals in equal measure to captivate her audience.

# FAERIE FESTIVAL

A woman with long, wavy red hair is the central figure, wearing a long, dark green, long-sleeved dress. She has large, translucent wings with iridescent colors of purple, blue, and yellow. She is standing in a dark, forest-like setting with a large tree trunk to her right and a stone archway behind her. The lighting is dramatic, with some glowing particles in the air.
